THE STUDENT UNION OF CBS REPRESENTING YOUR STUDENT INTERESTS

CBS Students is the student union representing all of Copenhagen Business School. It is an independent and democratic organization that represents more than 20,000 students across all programs and levels. CBS Students advocates for students' rights and welfare, organizes events and activities, supports student initiatives and projects, and facilitates dialogue and cooperation among students, faculty, and management.

CBS Students has two main areas of work: a political aspect, as well as through student organizations. In each

area, CBS Students works to improve the quality and direction of CBS, to raise awareness and engage students on relevant topics, and to support student-led initiatives and projects that contribute to positive change.

Some of the activities of CBS Students include:

- **Running for election** to the Academic Council or the Board of Directors, where they can influence the strategic decisions of CBS.
- **Joining committees** or working groups, where they can work on specific issues or projects related to edu-

- cation, sustainability, diversity, social responsibility, or internationalization.
- **Volunteering** for one of the events or campaigns, where they can help raise awareness and engage other students on topics that matter to them.
- **Supporting student initiatives** and projects through our student organizations. This is both in terms of funding but also with legal and general support on how to run an organization.
- **Organizing big events** around the year like Student Society Day and Semester Start Celebration.

- **Participating in the general assemblies and meetings**, where they can voice their opinions and vote on important matters. This is both a university level but also on a national level through our sister organization DSF with other universities.

By joining CBS Students, you can get involved in various ways and gain valuable skills and experience. You can also expand their network and horizons, have fun along the way, and contribute to making CBS a better place for everyone.

 YOUR STUDENT UNION

MEET CAROLINE

One of the board members of the student union, CBS Students, is Caroline Bering. She is from Denmark and currently studying HA(psyk.) / BSc. Business Administration and Psychology.

What extracurricular activities have you been involved in during your time at CBS?

Shortly after I started at CBS, I became a member of CBS Students, the student union of CBS. My motivation can be boiled down to two reasons:

to delve deeper into the university's inner workings and to actively contribute towards student well-being, promoting student influence, and ensuring quality of education. This particular focus led me to run for the study board of HA(psyk.), and I was fortunate enough to be elected. If you also want to improve and develop your program, making it even better for future students, I think you should run!

HOW DID BEING PART OF THE STUDENT ORGANIZATIONS INFLUENCE YOUR TIME AT CBS?

Even though my time at CBS has just begun, my involvement with CBS Students has already exceeded my expectations. Through this engagement, I have not only gained extensive knowledge about CBS and education at large, but I have also gotten a valuable network with exceptionally talented individuals. Moreover, I've got the opportunity of having influence to ensure quality and well-being among the students at CBS. Additionally, my role as Vice President of our community within CBS Students allows me to apply the theoretical insights garnered from my HA (psyk.) studies.

WHAT WOULD YOU SAY TO STUDENTS WHO WOULD LIKE TO JOIN A STUDENT SOCIETY?

As you peruse this book of network organizations, it may seem a lot, particularly if you are already feeling overwhelmed trying to balance academics and social life. It is true that joining student organizations requires a certain investment of your time. However, allow me to offer some sage advice: take the leap. The invaluable network you will obtain, friendships across programs, the experiences you will amass, and the knowledge you will acquire make every moment worthwhile.

OUR EVENTS

UNIVERSITY ELECTION

Each autumn, CBS Students is engaged in organizing the University Election. We look for candidates for the Study Boards, Academic Council and Board of Directors and help them with their election efforts. In 2022, there were over 120 candidates running in the Election.

STUDENT SOCIETY DAY

Towards the end of September, we put together the Student Society Day. That is when 60+ student organizations at CBS gather on the same day at Solbjerg Plads to engage with the students to recruit new members or promote their events.

SEMESTER START CELEBRATION

Every September, we organize in collaboration with Café Nexus and CBS, the Semester Start Celebration.

Starting with a Nordic-Nine fair, this leads to the biggest party of the year. This is an event where over 7000 people gather to properly start the new semester.

SENATE HEARING

CBS Students organizes a Hearing twice a year with the purpose of creating a shared vision for CBS. It is a forum where study programs can discuss and share their perspectives, and a space where they can organize and coordinate to maximize student impact.

BOARD TALENT ACADEMY

A completely new initiative for members of student organizations at CBS. With a focus on developing and demystifying Board work in Denmark, CBS Students believes that this five-session academy has a direct impact on the life of its participants.

WELFARE WEEK

Welfare Week is inspired by the American "Mental Health Awareness Month". It is organized by CBS Students and takes place once a year to raise awareness of mental health issues related to being a student and to emphasize the importance of taking care of one's health.

HOW TO...

... GET MONEY FOR YOUR IDEA

Activity Pool

CBS Students encourages and supports students to run activities because it adds value for CBS, the study environment and the students. For this reason we have managed to let CBS allocate an amount of 1.5 mil DKK to student-driven activities. The committee deciding which activities to support consists of students only.

So if you have a great idea, initiative or activity that will make CBS an even better place to be a part of, you should hurry up and apply for the CBS Students Activity Pool. We encourage you to be creative and think big – let us show what a great study environment can look like!

You can find out the guidelines and criteria on cbsstudents.dk under the Hub for Student Organisations page!

... START YOUR OWN ORGANIZATION

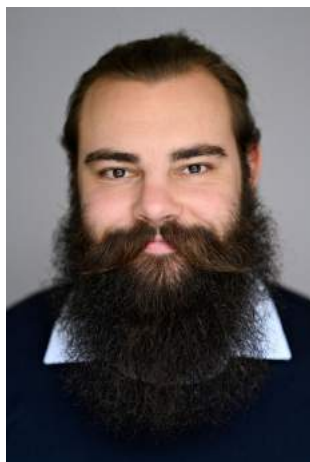

CBS Students wants to ensure a vibrant study life, and our new Organizational Consultant Mick is here to help you with the establishment and development of new and existing student organizations.

Mick will help you with creating statutes/bylaws, having your first general assembly, organizing your board work, and getting a bank account set up.

He will also support you on the development of your existing organization through facilitating strategy processes, techniques to organize, methods to engage your volunteers and good ways to increase the number of participants at your events.

E-mail us to hear more, come by our office (next to Cafe Nexus) or check out our website.

We look forward to hearing from you!

MEET LINE

Line Duus Madsen is a student of Business Administration and Project Management from Denmark. She is engaged in student life at CBS through CBS Krea.

WHICH EXTRA-CURRICULAR ACTIVITIES HAVE YOU BEEN INVOLVED IN DURING YOUR TIME AT CBS?

I am the founder of CBS Krea, a society that gives students a chance to try different crafts. We provide a creative space where students across studies can unfold their creativity and take a break from their ambitious everyday life at CBS.

HOW DID BEING PART OF THE STUDENT ORGANIZATIONS INFLUENCE YOUR TIME AT CBS?

My time at CBS has been filled with challenges and being a part of CBS Krea has given me the chance to meet students from different studies and cultures with the same love for creative projects as myself. Besides that, I have gotten to try and run an organization which has been a very intriguing, but exciting challenge!

WHAT WOULD YOU SAY TO STUDENTS WHO WOULD LIKE TO JOIN A STUDENT SOCIETY?

I would say - do it! I know that it can be hard to find time, so try and find something that you love (or might be able to fall in love with) and try it. And if you don't feel like joining a society, look into what types of events the societies are hosting - a lot of students plan so many cool things, so you might as well join and get all the benefits of being a student at CBS.

MEET ALICJA

Alicja Soska is an EBA People and business development student from Poland. Through student organizations she got a chance to unwind her artistic side in a business school.

WHICH EXTRA-CURRICULAR ACTIVITIES HAVE YOU BEEN INVOLVED IN DURING YOUR TIME AT CBS?

Alongside my studies at CBS, I was involved in CBS Jam as a part of the management team, helping bring some music to our campus. Last year I became a buddy for incoming exchange students and a volunteer in the event team at Station.

HOW DID BEING PART OF THE STUDENT ORGANIZATIONS INFLUENCE YOUR TIME AT CBS?

Being an active member of a student organization gave me a community and a sense of belonging, which made moving to a new country and adapting to university life a lot more pleasant. It gave me new ideas for my professional future and positively influenced my social life at CBS.

WHAT WOULD YOU SAY TO STUDENTS WHO WOULD LIKE TO JOIN A STUDENT SOCIETY?

Go for it! No matter your interests, I feel like you can always find something suitable for yourself, different from your studies. Being active in an organization gives you a lot of useful skills that studying just doesn't. And you can meet great people along the way!

MEET MO

Some students can find a purpose in university initiatives by being a voice of others. One of them is Mohit Khatwani. Mo is a student of BSc in Digital Management from Spain and India.

What extracurricular activities have you been involved in during your time at CBS?

I have been involved in quite a few things around CBS like CBS Tech Day, my Study Board, and Startup Generator, but my two main priorities have been CBS Students and the Academic Council. CBS Students my role is as an Vice President, handling all communications. In the Academic Council, I serve as a representative voice for all students.

HOW DID BEING PART OF THE STUDENT ORGANIZATIONS INFLUENCE YOUR TIME AT CBS?

Being an active member of a student organization gave me a community and a sense of belonging, which made moving to a new country and adapting to university life a lot more pleasant. It gave me new ideas for my professional future and positively influenced my social life at CBS.

WHAT WOULD YOU SAY TO STUDENTS WHO WOULD LIKE TO JOIN A STUDENT SOCIETY?

Go for it! No matter your interests, I feel like you can always find something suitable for yourself, different from your studies. Being active in an organization gives you a lot of useful skills that studying just doesn't. And you can meet great people along the way!

WHO WE ARE

We are a group of dedicated students who are passionate about the financial sector and providing our fellow students with the tools they need to succeed in this industry

WHAT WE DO

Our organization emphasizes a “learning by doing approach” and collaborates with industry experts to create cases within various tranches of corporate finance. The cases are provided on a monthly basis, teaching the students everything from portfolio construction, risk management, M&A etc. Every month, the best group will receive a certificate, signed by AFM and the company collaborating on the case. This benefits the students when applying for a job in finance, and also increases the likelihood of top students applying for a job at one of our collaborating partners.

HOW TO GET INVOLVED

If this organization appeals to you, don't hesitate to apply for a membership. To be considered for a membership in the organization, please send a motivated cover letter to our email. Every motivated student enrolled in a CBS programme is welcome.
